Dear Parent/Guardian:

The School Health Section of the School Code all grades are required to have yearly screenings which included vision screening and height/weight / BMI's. The 11th grade is required also to have a hearing screening and physical examination in addition to the above screenings.

The scheduling of the screenings and examinations will be done during the school year at a time that is convenient for your child, the physician and the school calendar.

If you have any objections to having your child participate in the screenings and medical examination, please inform the school nurse in writing at the beginning of the school year.

Sincerely yours,

Darcy Yeloushan, RN BSN
East Allegheny School District
