

## Travel Club

The Travel Club was created at East Allegheny to give students an opportunity to see the world on an educational field trip. It's an opportunity to visit the places you learn about in school while immersing yourself in a new culture—surrounded by the people, the language, the food, and the way of life. Travel gives kids (and adults) the kinds of experience that inspire confidence and cultural awareness they'll carry throughout their lives.

Since 2008 I have been leading groups of students (and adults) on national and international field trips. I'm proud to offer these travel opportunity to you and your student.

- Students in grades 9-12 are invited to travel
- Faculty/Friends/Family members of East Allegheny School district are invited to travel

Please attend one of the scheduled meetings to get all of the details and information about these tours.
