Welcome...

**If you are serious about your dreams,
we will take your dreams seriously.**

Forbes Road Career and Technology Center is not just your elective, it's a head start on your future. Roll your sleeves up and get started in a class that is fun, exciting and something you will really enjoy doing.

We have 700 students and offer 17 programs of study .

The Forbes (FRCTC) advantage.

Whether you plan on going to college or right into your career, FRCTC students graduate ahead of the game, giving them an advantage over other students.

- **EXCEPTIONAL TEACHERS**—Learn to work as a team with some of the best experts in the field.
- **STATE OF THE ART EQUIPMENT**— Our labs are outfitted with high tech equipment that will rival most colleges and workplaces. Our tools, machines, computers and equipment are amazing.
- **INDUSTRY CERTIFICATION**—If there is a certification available for your lab, you can earn it.
- **REAL WORLD EXPERIENCE**— Whether it's a Co-op, Job Shadow, Internship, Apprenticeship or Clinic, FRCTC students gain real world experience at local companies.
- **COLLEGE AND CAREER READY**— FRCTC students are skilled, graduate with experience and can earn college credits.

Our Students Can Become:

- Forklift Operators \$34,900
- Material Supervisors \$50,910
- Procurement Clerk \$40,400
- Shipping/Receiving Clerks \$32,070
- Truck Loader \$38,280

100% of students can gain real world experience while in High School through
CO-OPS, JOB SHADOWS, INTERNSHIPS, APPRENTICECHIPS, & CLINICALS

APPRENTICESHIP - Students begin paid work-site learning as youth apprentices during their junior and/or senior years of high school. Students spend two days at a work-site under the supervision of a work-site mentor.

COOPERATIVE EDUCATION—This method of instruction integrates academic and technical education with job training in the student’s career field through written co-operative arrangements between the schools, employers, parents and students.

INTERNSHIP—Through actual work experience, the non-paid Internship program is designed to give students the “work experience” often demanded by today’s employers. This program provides support, guidance, evaluation, and allows the student to utilize the skills gained in the classroom.

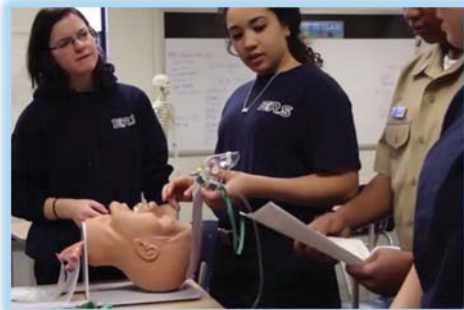

JOB SHADOWING—Students spend time at a work-site to gain insight and information about their chosen career fields. These students experience first hand, the tools, products and talents of personnel in the sponsoring business. Visit our small, but growing lending library and talk with the English teacher about the benefits of attending Forbes full-day.

CLUBS & ORGANIZATIONS

Compete Against the Best and Travel the USA

Career and Technical Student Organizations (CTSOs) offer students that ability to compete with others in their skill area at district, state and national competitions. As a CTSO member, you will test your skills among the best, volunteer in the community and earn scholarships. In 2015, John DeMore an Electrical Technology student from Springdale High School participated in SkillsUSA National Championship in Louisville, Kentucky. He won a Bronze Medal for third place in Industrial Motor Controls, tools, prizes and scholarships. Who doesn't want to make new friends and travel the country. You just might be the next National Champion not only winning the title but scholarships and prizes

DID YOU KNOW???
